PERFECT FOR FEEDING AMONG OTHERS:

APPLICATION:

Allround Mix is a mix of three complete feeds. This combines all the good elements of our Astax Pellet, Staple and a yellow-coloured pond pellet. Together, this results in a colourful mix with several unique ingredients: astaxanthin, spirulina and wheat germ.

* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes.

Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 °C.
